

Cat & Kitten Rescue

Conditions of Adoption

It is our policy to try and ensure that all our cats and kittens are neutered, microchipped and vaccinated before leaving our care. The cost of this is in part recouped from the donation paid. However, should the cat have not completed its vaccination programme by the time it is rehomed, the adoptive family will be responsible to ensure this is completed at their own vets and at their own expense.

Cat and Kitten can accept no responsibility as to description, condition or health of the cat adopted and gives no warranty of any kind expressed or implied

- Information concerning the habits and past history of the animal is passed on by Cat and Kitten to the adopter in good faith. This is based on statements made by the previous owner where applicable. However, there is no guarantee of reliability.
- Cat and Kitten is unable, therefore, to accept liability for any consequences whatever resulting from events attributable to the failure to give information or the transmission of wrong information.
- The animal is believed to be in normal health on leaving Cat and Kitten except where specific conditions have been made known to the adopter in writing. It is regretted that Cat and Kitten is unable to accept liability for expenses of any kind arising from sickness developed subsequently.
- In cases where an animal is known to possess a specific condition, the presence of which is notified to the adopter, the responsibility for and cost of future treatment shall be solely that of the adopter.
- I understand that the donation I make to Cat and Kitten Rescue is non refundable

I have read and accept the above / attached conditions and am satisfied with the condition of the cat/kitten I wish to adopt and the information I have been given. I am prepared to accept ongoing responsibility for any specific condition(s) I have been made aware of.

I confirm that I am over 18 years of age
